

**CONTROL ARM PAIR, MOTORSPORT, REAR UPPER
ADJUSTABLE, B4/B5 AUDI****034 MOTOR SPORT**

This kit is designed to offer fully adjustability for camber and caster, and removes all rubber components in this joint for precise suspension geometry

Supplied Parts:

- (2x) billet rear upper control arms
- (6x) spherical heim joints with jam nuts
- (6x) billet spacers
- (6x) dust boots (optional)
- (3x) anti-seize packets

Getting Started

- Confirm you have received all the parts included with your purchase by reading the complete guide, if there are missing components, please contact customerservice@034motorsport.com

Assembly Steps

Step A

Open hardware packages

Step B

Apply half packet of anti-seize to each rod end

Step C

Run the jam nut down the shaft to disperse the anti-seize along the entire threaded portion

**Step D**

Install the spherical heim joints into the threaded holes on the control arm. Repeat all steps for the other arm.

Use the length of the stock component as a starting point for the length of the 034 adjustable rear upper control arms; expand or compress as best fits your needs

Step E (optional)

Insert heim joint into dust boot. The boots will stretch to accommodate the heim, but avoid using sharp tools to pry at the boot

Step F

Be the envy of all your B5 buddies
