

B9 Audi A4 Transmission Mount Insert, Billet Aluminum

034Motorsport's Billet Aluminum Transmission Mount Insert for the B9 Audi A4 is designed to fill the large void in the factory transmission mount, and limit transmission movement without sacrificing ride quality or introducing any additional noise, vibration, or harshness into the cabin. By filling the void in the factory mount, this insert eliminates the associated slop to ensure that you experience crisper shifts and a smoother driving experience.

Installation Spiciness Rating: SPICY

Installation of 034Motorsport Billet Transmission Mount Insert is a straightforward process that will take approximately thirty minutes to complete.

Supplied Parts:

- 034Motorsport Transmission Mount Insert

About This Guide

This Install Guide documents the installation process on an B9 Audi A4. There may be minor differences depending on specific vehicle, market, options, etc.

Install Steps

Step 1

Lift the car to access the underside of the car.

Step 2

Using a 10mm Triple Square, remove the hardware securing the factory transmission mount bracket to the transmission mount assembly.

Step 3

Remove the factory transmission mount bracket.

Step 4

Apply Silicone Grease to the legs of the 034Motorsport Transmission Mount Insert and press into the factory transmission mount assembly as shown below. Apply Blue Loctite to the factory bolts before reinstalling.

Step 5

Torque the factory M8 bolts to **25 Nm** with Blue Loctite applied. Make sure to thread in both bolts before tightening either of them to spec to ensure that the insert is properly lined up.

Step 6

Double-check the installation, and verify that everything is torqued to spec.

Step 7

You are done. Enjoy the upgrade!
